Projects

Full-Stack :

Laravel-React Real-Time Messenger App : Laravel 12 | React | WebSockets

- Built a real-time messaging system supporting private and group chats via WebSockets (Laravel Reverb).
- Managed media-rich message history (files, images, audio) with infinite scroll and efficient loading.
- Designed group management with background jobs for high-volume deletion operations.
- Developed role-based user management (admin, blocking, permissions). (Deployment: VPS + CI/CD)

Live demo | github

Full-Stack Car Marketplace Application : Laravel | Blade | Pest

- Built a full-featured marketplace for buyer/seller workflows with secure authorization (Gates & Policies).
- Developed advanced search, filtering, optimized multi-image uploads, and personalized watchlist.
- Integrated AI assistant, dashboard for sellers and users and social login via OAuth (Google, Facebook).
- Ensured reliability through Feature and End-to-End testing using Pest PHP. (Deployment: VPS + CI/CD)

Live demo | github

SSR-Enabled Feature Voting Platform : Laravel 11 | React | TypeScript | Inertia v2

- Built a full-stack voting platform with upvote/downvote mechanics and comments system.
- Implemented a three-tier role system (Admin, Commenter, User) using Spatie permissions.
- Integrated an AI-powered assistant for interactive support
- Enabled full SSR for SEO optimization and faster initial rendering. (Deployment: VPS + CI/CD)

Live demo | github

Front-end :

E-commerce Website (React JS) :

REST API integration • **Stripe payments** • Cart (Context API + localStorage) • Responsive UI • swiper.js

Live demo | github

E-commerce Website (Vanilla JS) :

Pure JS architecture • **Stripe integration** • Cart (localStorage) • Responsive design. • Swiper.js

Live demo | github

Admin Dashboard (React JS) :

Data visualization (Nivo) • Advanced tables (MUI Data Grid) • Routing (React Router) • Form handling (React Hook Form) • Calendar (FullCalendar)

Live demo | github

E-commerce Website (Next JS) :

TypeScript • **SSR** • REST API • Authentication (Clerk) • State management (Redux) • Tailwind , shadcn UI

Live demo | github

SKILLS

Full-Stack Web Developer focused on scalable architecture, clean code, and production-ready systems:

• Frontend – React: • **React** • **Next.js 15** • **TypeScript** • **JavaScript (ES6+)**	• Backend – Laravel: • **Laravel 12** • **PHP** • **REST APIs** • **Inertia.js v2** • **Blade**	• Databases: • **MySQL** • **PostgreSQL** • **Redis** • **Eloquent ORM** • **DB Indexing** • **Query Optimization**
• State Management: • **Redux Toolkit** • **Context API**	• Authentication & Security: • **Laravel Auth** • **Laravel Socialite** • **Spatie Permissions** • **OAuth 2.0**	• Testing: • **Pest PHP** • **Feature Tests** • **E2E**
• UI & Styling: • **Tailwind CSS** • **Material UI** • **daisyUI** • **Headless UI**	• Background Processing: • **Laravel Jobs** • **Laravel Queues**	• AI Integration: • **AI-powered** assistants integration
	• Realtime: • **WebSockets** • **Laravel Reverb**	• Payment Integration: • **Stripe**

Education :

Transitioned from Dental Studies to Software Development.
Dedicated **3 years** (2022-Present) to self-directed learning full-stack web development and building multiple production-level projects.
